## REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed towards an apparatus having a determine pass logic containing inputs to receive significance state information for a region, a pass bit for each coefficient in a subset of the region, and a current pass indication, the determine pass logic to generate pass indications to indicate a pass for each coefficient in the subset of the region. Each independent claim identifies the uniquely distinct feature " for a selection logic having inputs coupled to signals output from the determine pass logic and the current pass indication to generate output indications associated with one pass of either the significance propagation, refinement, and cleanup passes and a control coupled to receive the output indicating the next coefficient in the one pass, the control coding coefficients in the significance propagation, refinement and cleanup passes, including coding the next coefficient in either the significance propagation, refinement and cleanup passes as indicated by the next coefficient logic". The

closest prior art, Benamara (US 6,128,413) discloses a method and apparatus for compressing of data using a technique for quantization and encoding referred to as mapping through interval refinement, in which the data elements after de-correlation are effectively stored in decreasing order of significance and then written to an output data set using an efficient encoding method which incrementally refines the precision of elements already output, while Chamzas et al. (US 4,973,961) disclose method and apparatus for carry-over control in arithmetic entropy coding and Allen et al. (US 5,381,145) disclose method and apparatus for parallel decoding and encoding of data, either singularly or in combination, fail to anticipate or render the above underlined limitation obvious.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
